

Willow Tree Academy - Year 4 - Time Travellers (Stone Age, Bronze Age and Iron Age)

Key Knowledge

The Stone Age

It was a very long period of time. Split into three periods: Paleolithic (The Old Stone Age - Prehistoric), Mesolithic (Middle Stone Age) and Neolithic (New Stone Age). People were hunter-gatherers and were nomadic until they began farming; looking after animals and growing crops.

The Bronze Age

Bronze was used instead of stone to make tools and weapons. It was made by smelting. People were buried with their important possessions.

The Iron Age

Iron was used instead of Bronze to make tools and weapons as its shape could be changed. Settlements were often under attack and there were many wars. They lived in tribes in hill forts for protection. The Romans invaded Britain.

Key Places

Skara Brae, Scotland

Well - preserved Stone Age village in Orkney, Scotland. One room in each of the 8 houses made of stone.

Stonehenge, England

Famous Stone Age monument located in Wiltshire. Circle of very large stones standing upright. Some people believe it was built to learn about the movements of the Sun and Moon. Some people believe it was a burial ground.

Key Vocabulary
